NESTICT INFOTECH

Mission

To provide a superior quality service in international freight forwarding from the development and identification of integrated logistics solutions focused on efficiency, effectiveness, productivity and profitability for importers, exporters and for our company.

Vision

“To be a successful global information technology company trusted by its customers for service excellence, caring for its employees and collaborating with our customers to deliver innovative and value driven ICT products and services.”

Core Values

- Satisfying Our Customers** – Our customers are the lifeblood of our business and our most important stakeholder. We strive to meet or exceed their expectations on every technological experience.
- Integrity** – We believe that nothing is more important than our reputation, and behaving with the highest levels of integrity is fundamental to who we are.
- Leading By Example** – At all levels we act in a way that exemplifies what we expect of each other and our member clients.
- To support our customers** – we support our clients by providing superior products and services of exceptional value which help them gain competitive advantage in their markets;
- Cost-Conscious** – Being cost-conscious is about keeping an eye on expenses and making smart, sustainable choices even in the small, everyday things.
- To sustain our vision and mission** - we constantly seek renewal via continuous education and learning, and the application of new technologies and best business practices.
- Daring To Be Different** – We question old solutions and, if we have a better idea, we are willing to change.

Anticipated Demand

Since our product/ service are mainly service based we have devised a way of handling some products like downloadable software which require only payment and they are right in your email inbox, SMS notification link or instant download. Therefore the quantity is at customers' obligation. Some computer related hardware will depend whether the customer is as a business entity (bulk) or as an individual(personal obligation) will determine the quantity

Value to customer

As entity it is our obligation to customer satisfactory products/ services meaning the products/ services offered have to meet the relevant guidelines or laws including state laws and international laws. We will also introduce customer loyalty management system to award our customers different prize and shopping voucher. Also we will introduce coupons on our products / services

Innovation

We will extensively carry out research and experiment by involving our customers through feedback and surveys on the following scales

- 1) Time used to complete online transaction*
- 2) The payment methods and issues*
- 3) How online-email delivery general performance*
- 4) Involving customers directly on some consumable goods/ services e.g. T-Shirt Branding*
- 5) Testing products in development cycle before they reach consumable state*

Intellectual Property Strategy

All our content is original, indigenous and authentic. The content shall pass through the relevant guiding principles and laws before they are released for consumption. Since our business is legally registered with Kenya Registrar of Companies, we are entitled to enjoy similar benefits such as content protection from relevant state agencies, and the international framework guidelines. We shall not tolerate any piracy or related acts but prosecute in accordance with the prevailing laws

Insurance

WORKERS COMPENSATION:

- ◆ The compensation scheme shall apply to our employees as specified in [KENYA,S WORK IN-JURY BENEFITS ACT, 2007](#)

Who We Are

Advocacy For Incarcerated Families (AIFA) is a Non-Governmental Organization (NGO) Registered under the Non-Governmental Organizations Co-ordination Act.

It offers its services through three main projects namely: Wives of Incarcerated Men Advocacy (WIMA), Support for children of incarcerated Parents (SCIP) and the Comprehensive Approach to the Reintegration of Ex-Convicts (CAREX-CO). Through these three service projects, AIFA seeks to palliate the backlash of incarceration on the family unit. It empowers resilient families that can well absorb and adapt to effects of incarceration by uncluttering the family.
